Employer Description

Company Name: TCX Investment Management Company BV (TIM)

Internet Address: www.tcxfund.com

Description: TIM is the exclusive investment manager of The Currency Exchange Fund NV (TCX or the Fund).

The Fund is managed by a highly motivated and diverse international team of >30 employees that is going through an exciting expansion phase as the demand for the Fund's products grows and its investment base broadens. The company has an open culture, a flat organization structure, welcomes own initiative and supports the development of its employees.

TCX is an innovative development finance initiative with the purpose to protect borrowers in emerging and frontier markets against currency risk. It does so by offering long-term cross-currency and interest-rate derivatives when commercial parties offer no solutions. The Fund manages a global emerging market swaps portfolio of >USD 4 billion (gross derivatives outstanding), supported by a USD 1,2 billion capital base.

TCX operates on a double bottom line, combining impact with a sustainable long-term return.

TCX's origination is closely linked to that of its investors. A predominant source of transactions is meeting the hedging requirements of its investors directly, leading to a very close cooperative effort between the TIM commercial team and that of the investing institutions.

We offer

- A competitive package based on education level and working experience.
- 30 vacation days.
- Reimbursement of commuting cost.
- A contribution to the pension scheme.
- Relocation expenses.
